WORKFORCE INVESTMENT ACT (WIA) RELEASE NOTES
LOCAL WORKFORCE INVESTMENT BOARD (LWIB) RELEASE 4.16

Workforce Investment Act (WIA) System

Programs Modified:

Log # 5162   ESTAF (Enter Staff Data)

This program was modified to reference both the Job Training Partnership Act d_grnt_cd table and the d_wia_grnt_cd table. The program will also now look at both agcy and wia_agcy tables.

Log # 5173   EWIT (Enter WIA Exit Form)

This program was modified to create an edit on WIA Date Degree or Certificate Attained field. The edit will only allow a date in this field that is greater than or equal to the application date.

Log # 5194   PWIS (Print WIA Status Roster)

This program was modified to allow up to 999.99 per hour in the hourly wage field.

Log #5217   EWIE (Enter WIA Enrollment/Registration Form)
**   LWIE (Load WIA Enrollment)**
**   EWIG (Enter WIA Goals Form)**
**   LWIG (Load WIA Goals)**
**   PWIE (Print WIA Enrollment Form)**
**   PWIG (Print WIA Goals Form)**

Renamed the current wia_case.wia_agcy_cd to goal_agcy_cd. Add new optional field for the case level agency code as wia_case.wia_agcy_cd.

Log #5231   PWIF (Print WIA Follow Up Form)

This program was modified to correct the formatting of the Actual Hours Worked field to display up to 9999 on the report

Log #5260   EWIT (Enter WIA Exit Form)

This program was modified to fix employer logic to work like other Job Training Automation (JTA) screens to prevent the referential integrity error. This will also prevent the program from storing post exit services data when no exit data is stored.

Log #5264   QCH (Query Client History)

This program was modified by changing QCH and all history windows to display all three (3) WIA exit codes.

Log # 5293   LWIR (Load WIA Application)

This program was modified to allow field #20 to be updated to value "1" after a client has reached age 18 and has registered with Selective Service.

Log # 5315   EWIT (Enter WIA Exit Form)

This program was modified to not allow any changes to data for which the XWID has been transmitted.

Log #5318   PLWPD (Print Local WIA Performance Detail Report)
**   PLWPO (Print Local WIA Performance Outcomes Report)**
**   PLWPS (Print Local WIA Performance Outcomes Report)**

Removing Total Exiters modified this program. Only allow 3, 6, 9, and 12 for End Period month but allow past current period. Display dashes for the percent when no clients are measured. (i.e. denominator is zero.)

Log # 5329   XLWPR (Extract and Calculate Local WIA Performance)

This program was modified to only allow 3, 6, 9, and 12 for the end month and to allow for entries past the current period.

Log #5331   EPVA (Enter WIA ETPL Provider Form)

This program was modified to change the wia_provider_code field to char (11). Also a community college choice list was added to the provider code field. The list includes the FEIN and provider name. The **<F1>** key will display this list. If a provider is selected from the community college choice list, then the data provided by the Chancellor's office will be populated on the screen, but no changes to this data will be permitted. The program was also changed to allow increments on the provider code. Once the provider is entered or selected from the choice list, another choice list will be displayed listing all matching provider

codes and provider names and a "New Entry" option. If the "New Entry" option is selected, then the user will be in ADD mode. If an existing provider code is selected, then the existing information will be displayed on the screen and the user will be in UPDATE mode.

Log #5332   LPVA (Load WIA ETPL Provider Application)

This program was modified to change the wia_provider_cd field to char (11). Updates will not be allowed to any fields that were previously populated from the community college data provided by the Chancellor's office.

Log #5333   EPGA (Enter WIA ETPL Program Application Form)

This program was modified to change the wia_provr_cd field to char (11). Added field #3 to the program screen which is the COCCC ID. Removed the following fields from the program screen: proven_eftv, er_supp and indstry_auth. The program gives the user the ability to use existing program data to create a new program instead of keying all the information in again. If an existing program is selected from the program code choice list, the user will be prompted to indicate whether they want to update the current program or display the data for a new program. If the provider information was populated from the community college data, then a choice list will be displayed listing the CIP Code, increment, COCCC ID, and program name from the community college Chancellor's office for any records with a matching FEIN. If a program is selected from the community college choice list, then the data provided by the Chancellor's office will be populated on the screen, but no changes to this data will be permitted. Add value 4 – Exempt to the BPPVE approval status field and if this field = 4 then skip the Expiration date.

Log #5334   LPGA (Load WIA ETPL Program Application)

Modified program to add the COCCC ID and expanded wia_provr_cd to char (11). Also if BPPVE Approval Status = 4, then Expiration Date is not required. The load program will set the proven_eftv, er_supp and indstry_auth fields to null. Updates will not be allowed to any fields that were previously populated from the community college data provided by the Chancellor's office.

Log # 5336   PPGS (Print Program Status Report)

This program was modified to expand the WIA provider code to char (11).

Log #5337   XPRD (Extract ETPL Provider/Program Data)

This program was modified to expand the wia_provr_cd to char (11)

Log #5349   PETP (Print WIA Eligible Training Provider Lists)
**   EPVA (Enter WIA ETPL Provider Form)**
**   LPVA (Load WIA ETPL Provider Application)**

This program was modified by expanding email_adrs, web_adrs, and con_email to char (80).

Log # 5353   PWIS (Print WIA Status Roster)

This program was modified to display all three exit codes and to count all employed on the report regardless of date.

Log # 5355   EWIG (Enter Workforce Investment Goals)

This program was modified to change the Date Attained to Result Date.

Log # 5356   EWIE (Enter WIA Enrollment Form)

This program was modified to allow up to 100 activities.

Log #"s 5359,5335 EAPR (Enter Training Program Approval)

This program was modified to change the program code to 14 characters and all references to wia_pgm_apprvl.pgm_cd to reference st_pgm_cd. Provider code was expanded to 11 Characters. Removed proven_eftv, er_supp and indstry_auth from eligibility criteria. Added bppve_appr_stat = 4 to eligibility to criteria.

Log # 5361   PPGS (Print Program Status Report)

This program was modified to use the st_pgm_cd for wia_pgm_apprvl table and the program code has been expanded to 14 characters.

Log # 5362   XPRD (Extract Provider/Program Code)

This program was modified to change the field pgm_cd to st_pgm_cd for the wia_pgm_apprvl table. The coccc_id field was added to the wia_pgm_app table.

Log #5371   PWIB (Print WIA Base Wage Report)

This program was fixed to always display wages that are found in the base wage table, even if the jtpa_supp_data and/or wia_ipd_folup tables are also checked for supplemental data.

Log #5374   PETP (Print WIA Eligible Training Provider Lists)

Expanded wia_provr_cd field to char (11).

Log # 5360   EPGA (Enter WIA ETPL Program Application Form)

This program was modified to change the pgm_cd to st_pgm_cd in the wia_pgm_apprvl table.

<u>Scripts</u>:

Log #5366

Script will be run to set the d_wia_measure_cd.rate to "Y" for DER that was mistakenly set to "N".

Log # 5348

Scripts will be run to move the PWIP from the Performance Menu to the Participant Reporting Menu.

Log # 5326

A script will be run to eliminate choice #5 from the d_pell_grnt_rcpnt table for field #79 in the EWIR screen. All applications that were submitted with Choice #5 selected will be changed to choice #4.

Log # 5338

A script will be run to add a "00" to all existing wia_provr_cds in the wia_provr_app, wia_pgm_app, wia_pgm_apprvl, wia_pgm_currclm, wia_pgm_occ and wia_occ_recmnd tables.
